

We Docket # 18-155 regarding; updating the intercarrier  
Compensation Regime including conference calling services.

We count on conference calling & recordings, to find out about sickness,  
accident & deaths or good reports, of acquaintances & friends all across  
America. so we appreciate this service.

As a taxpayer, and a free conference calling client, I ask you to please reconsider  
acting on WC Docket No. 18-155. My free conference calling services are currently at  
risk of being completely eliminated and costing me, millions of others and our  
businesses.

I am urging you to refrain from eliminating services that I and millions of other  
Americans use regularly.

Long-distance carriers will not be negatively affected, financially or otherwise, if free  
conference calling services are left alone. In fact, they stand to gain upwards of \$80  
million.

However, if the FCC does decide to remove these services, I and millions of other  
American citizens and American businesses will be immediately and negatively  
affected. We will no longer be able to use these services for free and will instead be  
forced to pay for conferencing services provided by the long-distance carriers if we  
want to reach our non-profit organizations, our families, our churches, singing calls,  
news calls, prayer groups, support groups, board meetings, committee meetings,  
startups, schools, and global corporate communities and their families.

Widows and other lonely individuals are finding comfort in this type of free  
conference calling.

Do not take away my free conference calling services and further line the pockets of  
major long-distance carriers.

I ask the Federal Communication Commission to refrain from proceeding with its  
rulemaking in WC Docket No. 18-155.

Signed,

Please do not take away my free conference calling services. I use it to listen to news calls, singing calls on the church lines, hands cap lines. Find out about news from relatives which otherwise might not find out until days or sometimes weeks later. Church calls when unable to attend church. Thank you Thelma Zook.

P.S. I always pay my phone bill on time.

WC Docket 18-155 regarding: Updating the  
Dear Sirs, Intercarrier Compensation Regime including conference calling services.

We humbly ask that you consider our request. Received & Inspected  
NOV 6 2018  
FCC Mailroom

Our family enjoys listening to various inspirational conference lines, such as singing for handicapped people, some news lines, etc. This also includes worship services, and other gatherings where conference lines are used to enable people to 'listen in,' though not present because of distance. We ask that this service not be discontinued so that our family can continue to be blessed by this service.

Thank-you for your consideration —

As a taxpayer, and a free conference calling client, I ask you to please consider acting on WC Docket No. 18-155. My free conference calling services are currently at risk of being completely eliminated and costing me, millions of others and our businesses.

FCC Mailroom

As a taxpayer, and a free conference calling client, I ask you to please reconsider acting on WC Docket No. 18-155. My free conference calling services are currently at risk of being completely eliminated and costing me, millions of others and our businesses.

I am urging you to refrain from eliminating services that I and millions of other Americans use regularly.

Long-distance carriers will not be negatively affected, financially or otherwise, if free conference calling services are left alone. In fact, they stand to gain upwards of \$80 million.

However, if the FCC does decide to remove these services, I and millions of other American citizens and American businesses will be immediately and negatively affected. We will no longer be able to use these services for free and will instead be forced to pay for conferencing services provided by the long-distance carriers if we want to reach our non-profit organizations, our families, our churches, singing calls, news calls, prayer groups, support groups, board meetings, committee meetings, startups, schools, and global corporate communities and their families.

Widows and other lonely individuals are finding comfort in this type of free conference calling.

Do not take away my free conference calling services and further line the pockets of major long-distance carriers.

I ask the Federal Communication Commission to refrain from proceeding with its rulemaking in WC Docket No. 18-155.

Freeman Schlabbach

*I am a widow and give my time and home to care for needy girls. We regularly use the free calling services for our non-profit organization to call families, church services, support groups, etc. which we could not afford if we had to pay long distance calling. Please reconsider acting on WC Docket No. 18-155, free conference calling.*

We really appreciated free Conference calling. We have family out of state and like to keep in touch. Also when there is sickness and patients could not go to church services - they can get the free messages at home. Also when family members are sick it is nice to have some messages to pass the time and get some encouragement. And the cost would be over whelming and many could not afford to have to pay the high cost.

Marian K. Huber - 9-29-2018 - 717-445- [REDACTED]

Please do not eliminate the free Conference calling as we have family members that really benefitted from having messages on the telephone. Our sister has COVID and is on oxygen all the time. When the weather was too warm, it made breathing more difficult and she could listen to church service on the phone. We had 2 brothers that died of cancer and were in bed and really were thankful for the church service on the phone.
